CYBER SECURITY MALAYSIA AWARDS, CONFERENCE & EXHIBITION | 25-29 OCTOBER, 2010

Kuala Lumpur Convention Centre, Malaysia

## Securing Our Digital City

SECURITY, IDENTITY, STIMULATION ... Man's three fundamental needs. Security is the precursor to the evolution of identity and stimulation of ideas, creativity and innovation. Without security, there can be no development of an innovation culture. Information security is an essential step towards the growth and development of ICT and all other industries it enables.

Join in the global revolution in Securing Our Digital City.

# Gain an ACE in Information Security

Tap global opportunities to grow and develop your business. Gain valuable insights on the latest in information security. Get inspired by innovation in securing our digital cities. All this and more at the **Cyber Security Malaysia Awards, Conference & Exhibition** or **CSM-ACE 2010** in Kuala Lumpur, **26-27 October 2010**.

## LARGEST GATHERING OF GLOBAL INFORMATION SECURITY EXPERTS

The CSM-ACE is an annual industry conference that shapes the global information security landscape. With an anticipated turn-out of more than 1,000 participants from around the world, the 2010 edition is set to be the largest gathering of influential and innovative minds in information security. They are expected to include prominent personalities and professionals from the business, government and academic sectors.

The theme of CSM-ACE 2010 is “Securing Our Digital City”.

“Securing Our Digital City” is a proactive initiative to address national security concerns and to build community confidence by mitigating the multi-dimensional cyber security challenges in critical infrastructure, economic and cyber crimes.

The vision is to create a cyber-secured community that is engaged at the local, state, national and international levels. This will be a holistic approach towards cyber security.

The “Securing Our Digital City” initiative will provide the “community” with the knowledge and awareness in cyber security and best practices needed to secure our digital cities.

CSM-ACE 2010 incorporates a two-day conference, an exhibition of information security technologies and the Malaysia Cyber Security Awards 2010. The conference will run on three focused tracks:

- **Policy, Legal and Governance**
- **Technical**
- **Information Security Management System**

## Key Topic Highlights

- Securing Our Digital City: Towards 2020
- e-City: Towards a Resilience Society
- People – The Missing Link Factor in Inculcating Information Security Culture in Organization
- Treating Information Related Risks – What Control Do I Need to Know?
- Answering the Question “Does my Organization Handle Information Security Risks Effectively?”
- Balancing Information Security Compliance with Operational Efficiency
- What Works in Penetration Testing and Vulnerability Assessment?
- e-Discovery: Do it the Right Way
- Integrating Trusted Computing Technology in the Enterprise
- Securing and Data Protection in the Cloud
- Unified Content Security: Securing Borderless Enterprise

## OPPORTUNITIES IN NETWORKING AND BENCHMARKING

Apart from the two-day conference, other key highlights of CSM-ACE 2010 include the following:

- Opening Ceremony
- Exhibition
- Welcome Reception
- Gala Dinner
- Malaysia Cyber Security Awards 2010
- Satellite Events
- Trade and Business Matching
- Innovation Hotseat
- Pre-Conference Activities

## Why You Should Register?

### Build Foundation for Innovation to Drive Transformation in ICT Security

Act as a catalyst in driving transformation through creativity and innovation in securing our digital cities. The CSM-ACE 2010 creates a thought-leadership platform to venture into new cyber security frontiers.

### Learn from Global Leaders of Information Security

Gain knowledge and awareness in cyber security and best practices needed to secure our digital cities from some of the most influential global speakers. The CSM-ACE 2010 allows you to partake in the global exchange of policies, ideas and technology.

### Promote Trade and Investment Opportunities

The CSM-ACE 2010 offers the perfect setting for business matching, exhibition and networking among information security professionals, policy makers, industry players, researchers and ICT buyers from around the world. It is a golden opportunity to forge strategic partnership for greater cross border trade and investment.

### Expedite the Implementation of “Securing Our Digital City” Initiative

Gather voices from the industry members. The CSM-ACE 2010 provides a platform for the different key stakeholders to voice your opinions on the implementation of the “Securing Our Digital City” initiative.

#### About CyberSecurity Malaysia

CyberSecurity Malaysia began its operation as the Malaysia Computer Emergency Response Team (MyCERT) in 1997. In 1998, it became the National ICT Security & Emergency Response Centre (NISER) and by 2007, NISER underwent another transformation and was renamed CyberSecurity Malaysia.

With a new mandate, CyberSecurity Malaysia is positioned as the national cyber security specialist under the Ministry of Science, Technology and Innovation (MOSTI). It runs the Cyber999™ Help Centre for Malaysian Internet users. It also provides safety tips, advisories, and specialised services in the fields of cyber security such as Digital Forensics and Wireless Security. In addition, it runs a Training Centre for professional certification; manages an Outreach Portal [www.cybersafe.my](http://www.cybersafe.my); and is the sole certification body for Common Criteria (ISO15408) in Malaysia.

CyberSecurity Malaysia provides safety tips, advisories, and specialized services in the field of cyber security.
