

# Cloud Computing & Standards

**Ng Kai Koon**

Senior Manager, Legal & Public Affairs

# Is Cloud Security Important?

- Security has been the no. 1 concern from CIOs in adopting cloud computing
- Hype vs Reality
- Public vs Private Clouds
  - Are Private Clouds always more secure?
  - Who is responsible for Public Clouds?
- We need Standards!
  - Or do we?

# Standards in Cloud Computing

- Crowded space
  - Vendor driven organisations, such as Cloud Security Alliance
  - National Standards & Technology bodies , such as NIST
- *De facto vs* technical standards
- Requirements vs Implementations
- Existing vs New
- Promoting vs Stifling Innovation
- Global vs Domestic
  - Country legislation

# Thank you!
